

HEALTH CONDITIONS

VETERINARIAN: Champ du Perier Equine Clinic

Inspection upon arrival

As part of health safety procedures at the EQUITA LYON exhibition, free clinical examinations are systematically conducted on the arrival of the equines at the Eurexpo site.

Horses must be in a good overall condition and each of the elements listed below must also be presented. If the clinical examination is debatable, the animal/horse may be placed in quarantine stables that are situated outside the exhibition, and in more severe cases, the horse will be refused admission to the exhibition. All of the extra examinations and tests are at the animal/horse owner's expense and have to be paid on site.

Veterinarians and the Organising Committee reserve the right to exclude any horse which does not meet these conditions.

Mandatory elements

Horses in France

- **The identification papers with the description** noted by an official veterinarian or a studbook agent or provisional certificate for those waiting for the definitive description of the studbook.
- **A veterinarian authorised certificate**, indicating that horses and related equine species have been free from category 1 infectious diseases for at least 30 days of clinical signs (equine infectious anaemia, West-Nile disease, equine swine fever). It should indicate the number of the French veterinarian's professional association, the address of the usual residence of the horses, the name and the SIRE number or transponder number for the horse(s) concerned by the certificate.
- **An electronic transponder.**

Horses from foreign countries

- **The identification papers with the description** noted by an official veterinarian or a studbook agent or provisional certificate for those waiting for the definitive description of the studbook.
- A copy of the pedigree and zootechnical certificate issued by the country of origin and endorsed by the authorities (**see Article D653-111 of the French Rural Code**).
- Transport health certificate:
 - ⇒ **Intra-EU** : An intra-community health certificate, established by the veterinarian authorised by the yard where the horse is stabled and certified by the state sanitary department of the country of origin.
 - ⇒ **Outside the EU**: A DOCOM document delivered by the TRACES system
- **An electronic transponder.**

Unidentified horses will not be accepted.

HEALTH CONDITIONS

Vaccination

For equines over 1 years of age

Equine flu vaccination is mandatory: the "vaccination" sheet should include a stamp from veterinarian who is not the owner of the animal.

1. For all horses whose primary vaccination was administered before 1st January 2013:
 - a) Primary vaccination comprising two injections of flu vaccine separated by an interval between 21 and 92 days;
 - b) For boosters, the interval between two injections must not exceed twelve months.
2. For all horses whose primary vaccination was administrated after 1st January 2013:
 - a) Primary vaccination comprising two injections of flu vaccine separated by an interval between 21 and 92 days;
 - b) Booster to be administered 5 months later: the interval between two injections must not exceed 6 months;
 - c) For the annual booster, the interval between two injections must not exceed twelve months.

In any case, the last injection must be done at least 7 days before you come to the exhibition.

For equines under 1 years of age

Equine flu vaccination is mandatory: the "vaccination" sheet should include a stamp from veterinarian who is not the owner of the animal.

A primary vaccination comprising two injections of flu vaccine separated by an interval between 21 and 92 days.

In any case, the last injection must be done at least 7 days before you come to the exhibition.

Equine Viral Rhinopneumonitis vaccination is recommended.

Unweaned foals

- Description, birth certificate or the covering certificate of the mare.
- **A mandatory electronic transponder.**

If any of the elements described are presented and are not correctly completed and up-to-date the horse will be refused admission to the exhibition.

Veterinary service

There will be a continuous veterinarian service during the opening hours of Equita' Lyon.

Emergencies will be ensured 24/24.

Any intervention will be at your expense.

As veterinary teams are at the disposal of all the horses present at the exhibition, please be aware that a veterinarian might not be immediately at your disposal on your arrival.

Thank you for your understanding.
